

Victorian Time Traveler Arts Activity: Stick Puppets

Materials:

Puppet templates
Colored pencils or markers
Glue sticks
Scissors
Popsicle sticks

1. Use markers or colored pencils to add color to the illustrations of the Körner family. You can layer different colors to create depth, or use cross-hatching, stippling, or other shading styles below to create texture.

2. Cut out the puppet shapes along the outer black lines – cut slowly and safely!
3. Apply a thick layer of glue on the back side of the puppets once they've been cut out.
4. Attach a popsicle stick to the area of the back side of the puppet with glue. Press popsicle stick firmly and count to 10, then let dry.
5. Use your imagination to create a puppet show featuring the Körner family. How would the characters move and talk? What sort of actions would they do?
